

Rapport d'anglais n°5

Aim :

- Improve our oral level by imitating movies actors.
- Improve our level speaking English with other people.

Ressources :

- Scarface: *Tony kill Franck; Tony is drunk at the restaurant; The bomb under the car.*

Activities:

We wanted to choose a film with a lot of dialogues so we chose Scarface by Brian de Palma. We have watched a big part of the movie (1:40) together and then we watched the end on our own. Three scenes were interesting so we watched these scenes again in order to be sure that everybody is convenient with. Then, we have allocated the different roles to each other. We started to write down the script.

Results :

Thanks to our last experience with Pulp Fiction, we know that we have to memorize the script, in order to play the scene without a sheet of paper in front of us. So, it's still a work in progress.

Conclusion :

We have to keep on working on the scene because it's what we want to do.

Questions :

- Do you think that we missed something in the way we learn with the movies?
